DISCOVER THE BENEFITS OF A STERLING STAIRLIFT

Designed with users in mind, the Sterling 1000 straight and 2000 curved stairlifts offer a safe, reliable and comfortable way of overcoming the problems that some people encounter when faced with using their stairs. Sterling Stairlifts is a division of Minivator, a Quality Registered company that prides itself on supplying superior service and solutions. Over the past 30 years Minivator has helped thousands of people across the world gain access to areas in their homes and premises. With additional powered features to choose from your lift can be tailored to meet your needs regardless of whether your staircase is straight or goes around corners.

EVERY STERLING STAIRLIFT COMES WITH THESE STANDARD FEATURES:

The swivel feature allows you to turn safely onto the top landing. For even more convenience a powered option is available

The unique control can be fitted on either arm and makes using the lift easy, even for those with conditions such as arthritis

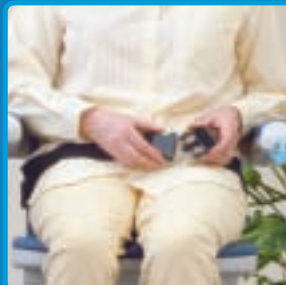

You can send the lift up and down the stairs with the push of a remote control button

Safety sensors ensure your lift will immediately stop if it meets an obstruction. Once removed the lift will start again

Discreetly hidden from view under the armrest, the key switch allows you to prevent the unauthorized use of your stairlift

An adjustable seatbelt offers additional safety and security when needed

The smooth, rounded armrests offer unrivaled support and comfort for getting into and out of the chair

Sterling lifts fold up when not in use. A power footrest option offers the ultimate convenience

STERLING 950

The Sterling 950 stairlift has been designed to be both easy on the eye and the purse. It's loaded with features and benefits usually found on lifts costing significantly more. A large, comfortable swivel seat will transport you safely on your stairs and no matter where you park the lift the constant charging feature means it is always ready for the next journey. The slim aluminum track takes up minimal room on the stairs and its folded dimensions leave you with plenty of space when not in use. The clever diagnostic display also alerts you to any issues making it quicker and easier to resolve many problems without the need for further assistance.

STERLING 950

The 950 folds up to a slim 11¼" leaving plenty of space on your stairs

The swivel seat allows you to stand safely at the top while facing the landing

A very smooth and quiet ride allows you to travel comfortably and safely

The footplate finishes level with the landing making it easy to get off and onto the lift

The unique armrest design makes it easy to stand from the chair

Like all Sterling lifts the 950 comes with easy to use remote controls as standard

STERLING 1000

When the Sterling 1000 was designed we considered not just how safe, easy and comfortable it would be to use but also how the lift would look in your home. Thanks to extensive consultation with leading healthcare specialists the result was a lift that continues to exceed our customers' expectations. With its great looks, and large number of standard features and options the Sterling 1000 is, arguably, the finest straight stairlift available.

STERLING 1000

The challenge of outdoor steps can also be overcome with the 1000 outdoor stairlift

A Perch seat option (also on 2000) is ideal for those with limited hip and knee flexibility

Sterling lifts are available with manual (950 & 1000) and powered (1000 & 2000) hinged tracks eliminating the problem of lower doorway or other obstructions

The SpaceSaver™ (also available on 2000 model) gives almost 3" of extra seat depth for when stairs are narrow and/or the user is tall

For the ultimate convenience the Sterling 1000 and 2000 come with an auto-fold footrest option

STERLING 2000

The 2000 curved lift is designed to be comfortable, easy to use and look discreet in your home. No other curved track available can be fitted closer to the wall and leave so much free space on your stairs. This system has enabled Sterling to offer the tightest inside turns available in the industry. The 2000 will fit the most complex and ornate stairways ensuring you can remain mobile in the home you love.

COLORS FOR 1000 AND 2000 MODELS

GREEN BLUE SAND ROSE RED

Colors can be easily changed at a later date

STERLING 2000

The 2000 track hugs the stair edge tighter than any other curved rail currently available

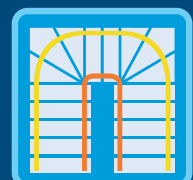

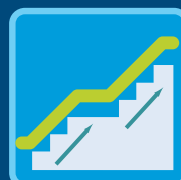

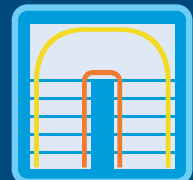

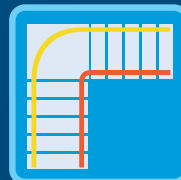

With the power swivel seat option turning your chair at the top of the stairs couldn't be easier (also on 1000)

The 2000 track can be extended to enable dismounting on the top landing

Sterling's versatile 2000 rail system will fit almost any staircase, no matter how complex

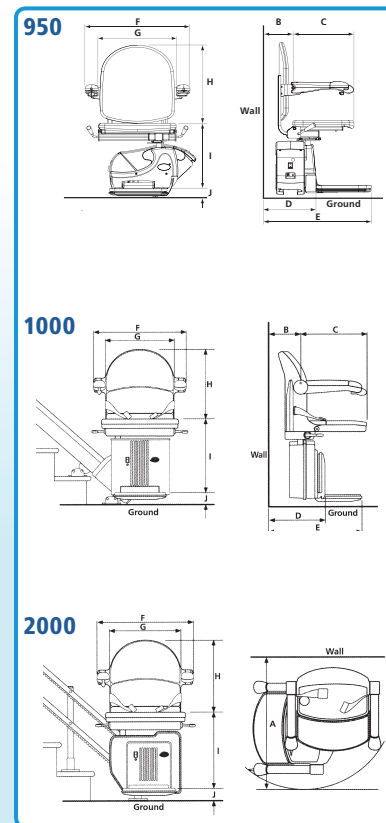

Just some of the stairway configurations the Sterling 2000 rail can be fitted to
